

August 30, 2018

Toddy, LLC has reviewed all of the materials used in the construction of our products to determine if any component is covered or otherwise impacted by California Safe Drinking Water and Toxic Enforcement Act of 1986 (hereafter "Proposition 65").

As of the date of this document the manufacturers of the materials used in our products have provided written documentation that, to the best of their knowledge, none of these materials contain and are not manufactured with chemicals that exceed human exposure thresholds requiring labeling under Proposition 65.

Please let us know if you have any further questions related to this matter.

Sincerely,

Julia Leach
President
