Smart Scale II™

Redesigned with a USB rechargeable Lithium-ion battery for longer life*. The Smart Scale II™ has the same water repellent nano-coating as the original, but is even more water resistant thanks to the completely sealed body and included silicone platform pad. It automatically tares, automatically times, and automatically shuts off depending upon which of the six available modes has been selected by the user. Perfect for pour over or espresso preparation.

**Micro USB charging cord not included*

Personalization Available:

To have a product laser etched with your company logo, please provide a high resolution (at least 300 DPI or preferably a vector format) image of the logo to Brewista. A one-time set up fee will be charged to process your logo. Once it's in our system it can be re-sized to be placed on any of the products we personalize, with no further logo processing fee.

The personalization cost per item varies depending upon the quantity ordered and the item type. Personalization is not available for every product we sell. Brewista will only personalize items with official company logos or for the purpose of promoting corporate business. We only personalize items purchased from Brewista or our BrewGlobal distribution partners.

Please contact us at sales@BrewGlobal.com for availability and a price quote.
