

FINALLY SOMETHING WORTH PUTTING IN YOUR COFFEE.

Barista
quality foam.

100% cool
for vegans and
vegetarians.

So you are a barista? Perfect. Our Barista Edition oatmilk is made from liquid oats which means it isn't overly sweet or excessively heavy. What it is, is fully micro-foamable, putting you in total control over the density and performance of your foam so you can showcase your latte art skillz, sorry, we mean skills. Anyway, give it a try and see what you think.

Bullet points provide a nice overview and are especially effective when you have a lot of good things you want to describe. Please enjoy:

- ☛ Steams and pours like whole milk, only with way more good vibes.
- ☛ 100% plant-based. Absolutely nothing from the animal kingdom. Or even the soy or nut kingdoms.
- ☛ Gluten-free and no added sugar.
- ☛ Everything is sustainable and void of stupid GMOs.

WOW NO COW!

If you're ready for some samples or just more info (but come on, samples are the best), email Bryan at barista@oatly.com.
